

AirWise Integration Details:

Through the integration between our systems, DJI and AirWise customers can easily use DJI drones with AirWise products for a range of public safety and enterprise operations.

DJI Pilot 2 App

To setup the DJI Cloud please follow the instructions below:

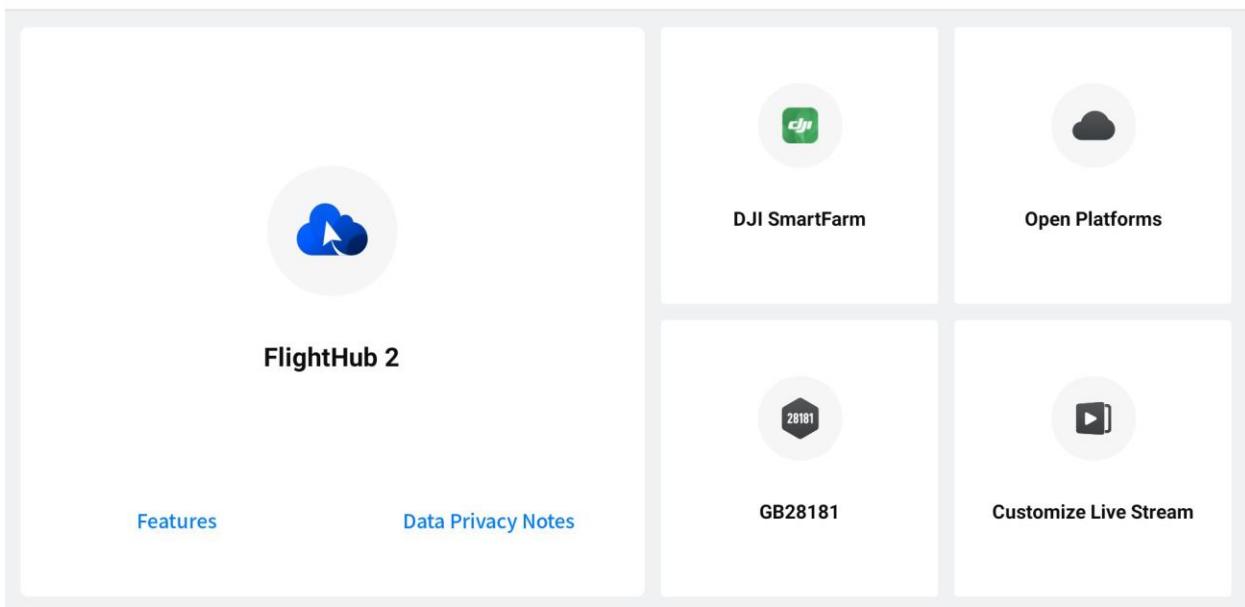

- 1) Make sure the Aircraft is powered on and connected to the controller.
- 2) Click on the Cloud Icon on the DJI Pilot 2 Application

- 3) Click on the Open Platforms Option

Cloud Services

- 4) Type in the following URL: <https://live.flightmanager.app/dji.html>

Third-Party Cloud Services

URL

<https://live.flightmanager.app/dji.html>

History

<https://live.flightmanager.app/dji.html>

- 5) If you get a page not found check the internet and the URL to verify its correct.
- 6) Wait a few seconds and you should have 4 green box's: Write down the Aircraft SN!

Aircraft SN Status:

Connected: 1581F5FJB22A700A0G0Q

Remote Controller SN Status:

Connected: 5YSZK9H00205LP

MQTT Connection Status:

Connected

Stream ID:

Connected: Enabled

- 7) Then click the < icon to go back into the main Pilot 2 Menu.
- 8) If you have any Red box's then restart the process and make sure the drone and green status light is on.
- 9) Provide AirWise Solutions customer success team with:
 - a) Your DJI Aircraft SN, it will look something like this, 1581F5FJB22A700A0G0Q
- 10) Go to <https://airwisesolutions.com/contact-us/> and reach out to the AirWise team, we will add your vehicle to our system and verify its proper functioning.

DJI Pilot App

To setup Livestreaming on the DJI Pilot app for Matrice 200 series drones:

1. Contact AirWise Solutions customer support to get the correct Live Stream Link
2. Make sure the Aircraft is powered on and connected to the controller

3. Select Manual Flight

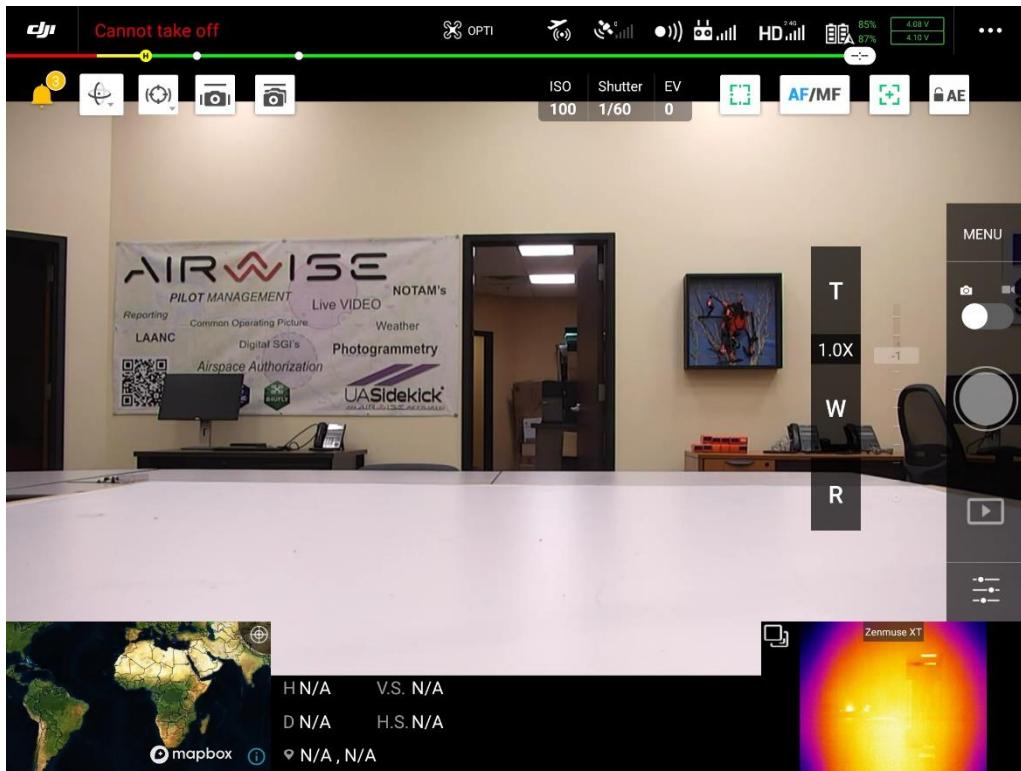

● MATRICE 210

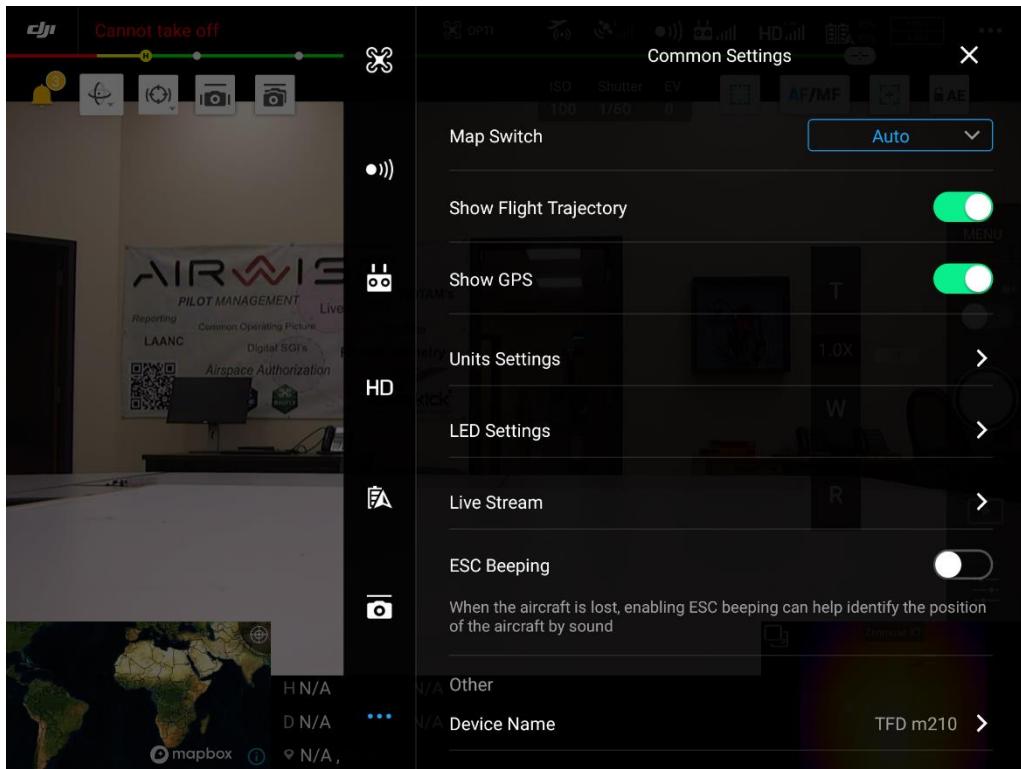

ZENMUSE Z30 ZENMUSE XT

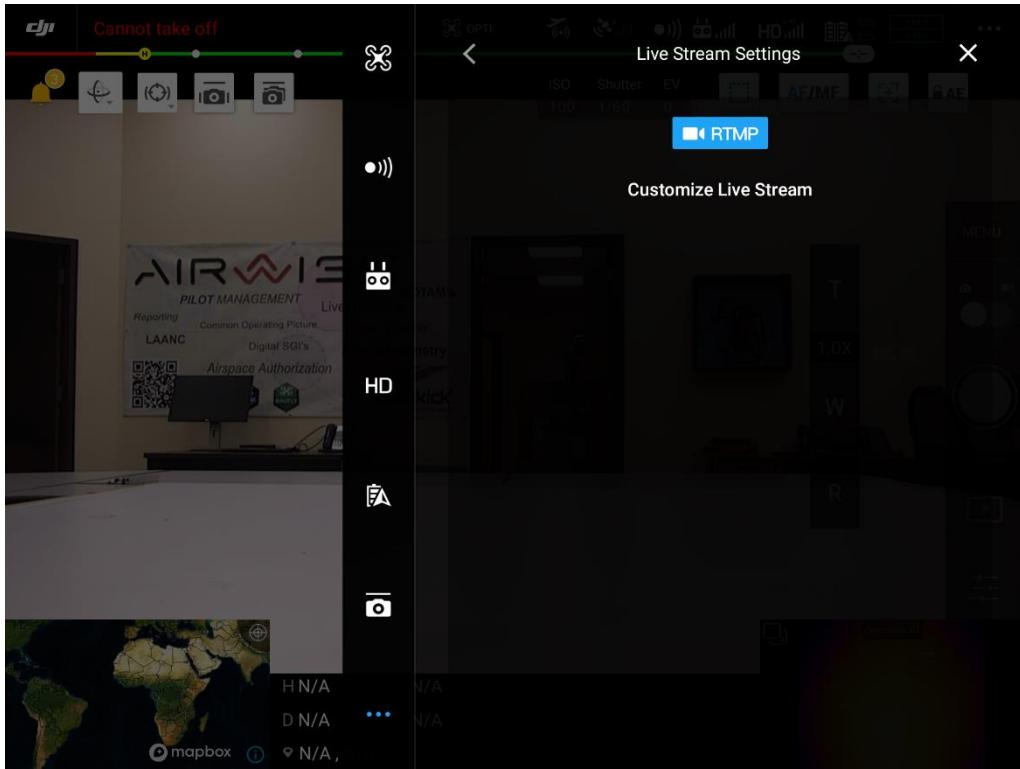

4. Tap the 3 dots in the upper right hand corner of the screen

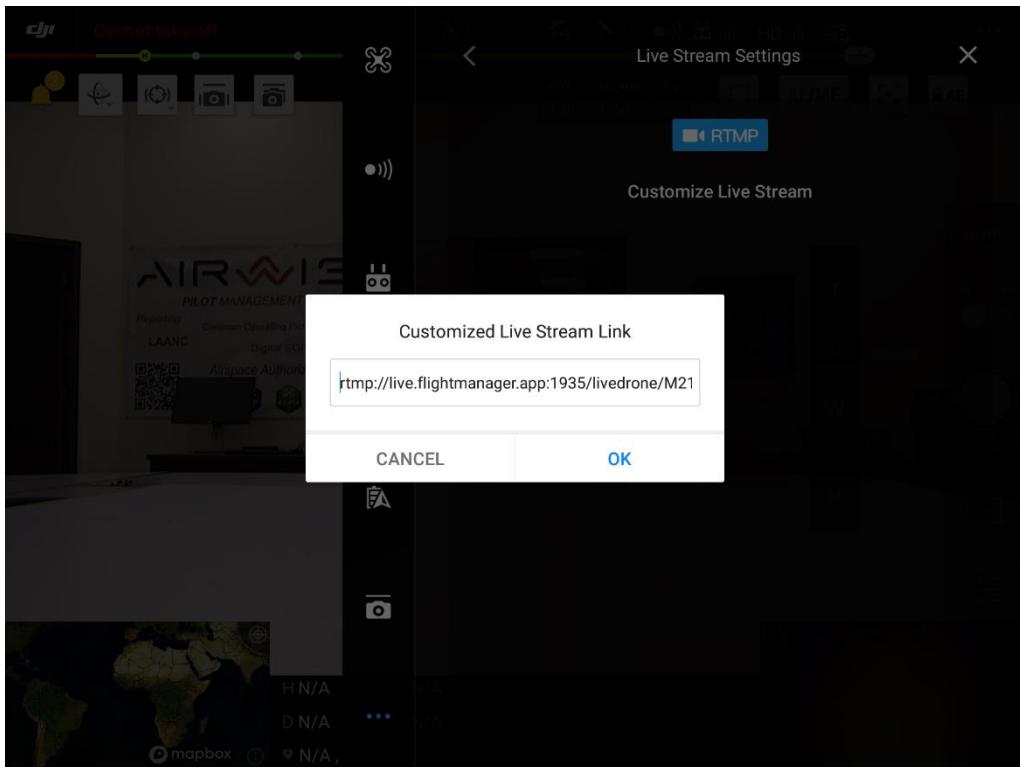

5. Tap the 3 dots at the bottom of the menu and select 'Live Stream'

6. Tap on the 'Customize Live Stream' link

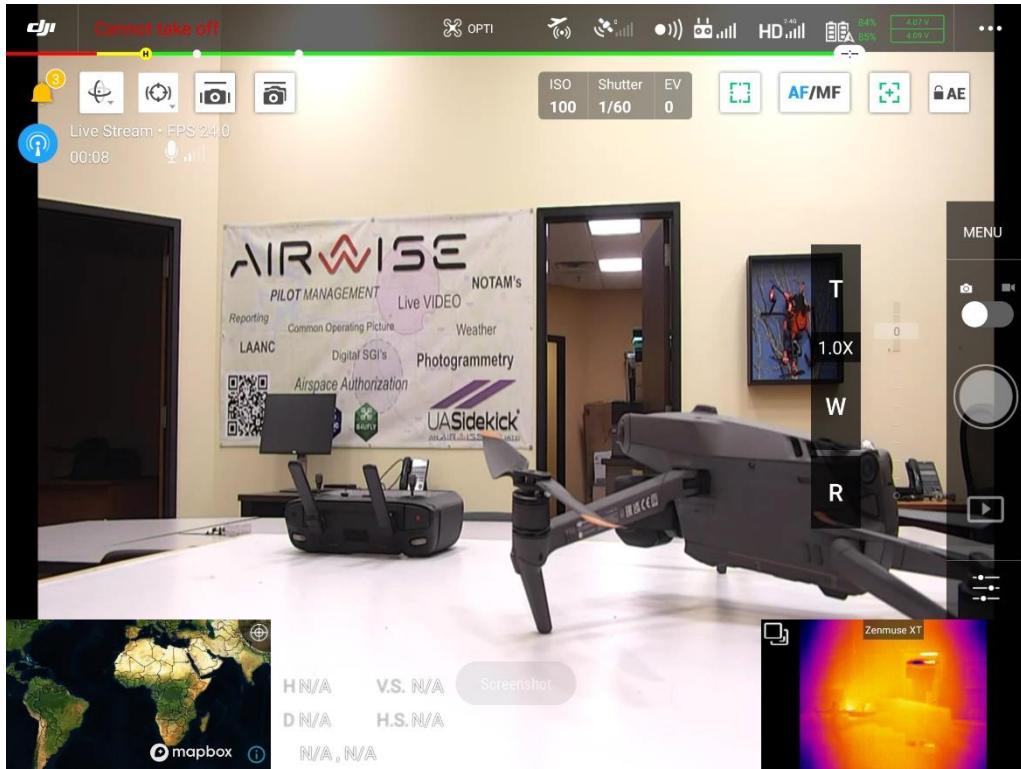

7. Enter the Live Stream Link you received from AirWise customer support and tap 'Done'

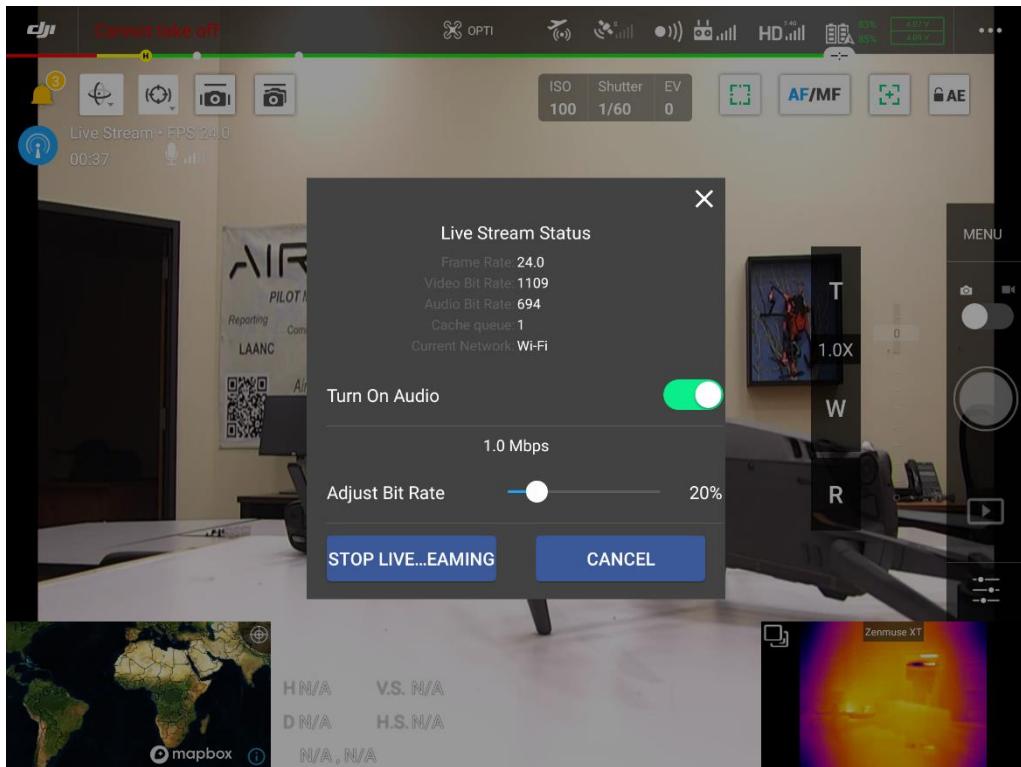

8. Tap on 'OK' to begin the Live Stream

9. To end the Live Stream, tap the blue circle in the upper right corner of the screen

10. Tap the 'Stop Live Streaming' button

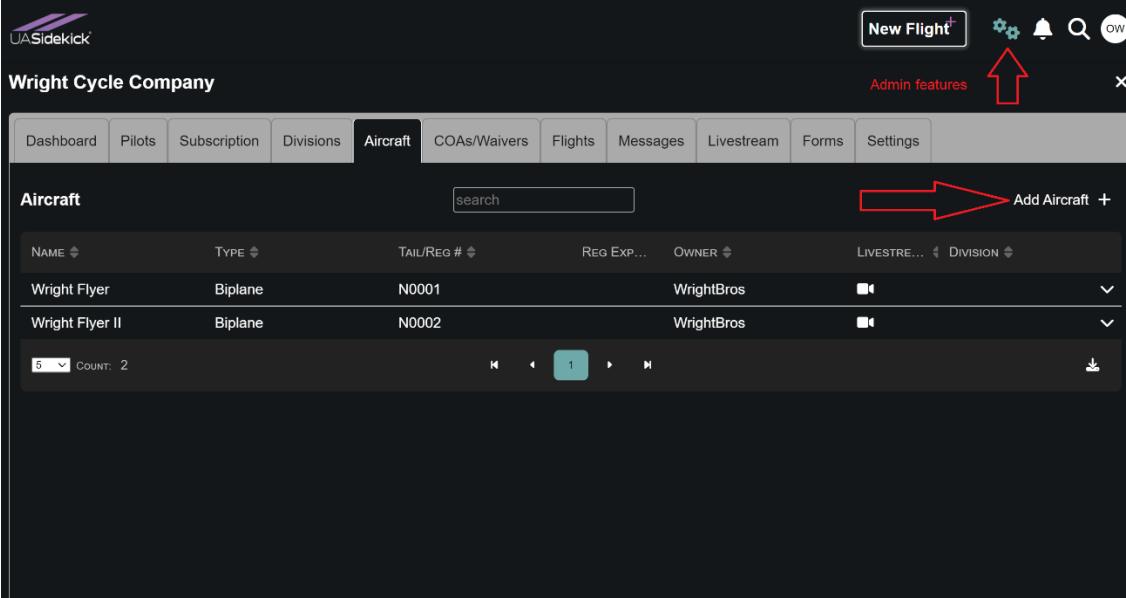

11. For future flights you will not need to enter the Live Stream Link. It will be remembered.

UASidekick Video Integration Details:

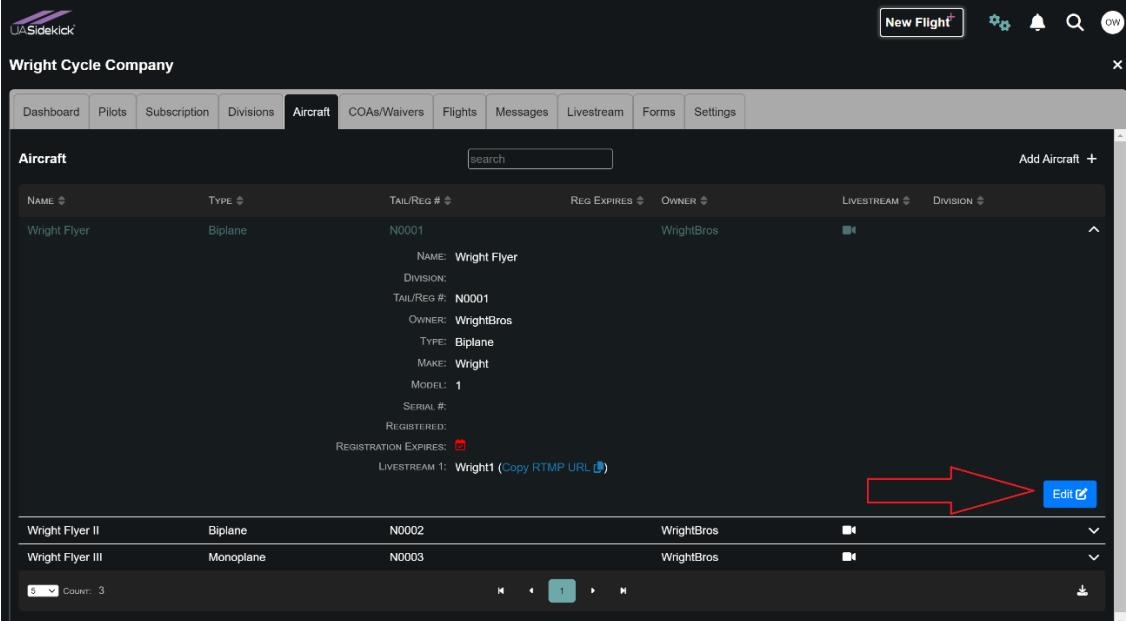

To receive DJI video streams through the UASidekick app please first complete the DJI/AirWise integration and then follow the steps below.

- 1) Navigate to the “Aircraft” tab in the UASidekick Admin features in the “Cogs” icon.
 - a. If this is a new aircraft, click the “Add Aircraft +” wording on the right side of the screen. Then move to step 2.

The screenshot shows the UASidekick Admin interface with the 'Aircraft' tab selected. The top navigation bar includes 'New Flight', 'Admin features' (with a red arrow pointing to it), and other icons. The main content area displays a table of aircraft with columns for NAME, TYPE, TAIL/REG #, REG EXPIRES, OWNER, LIVESTREAM, and DIVISION. Two aircraft are listed: 'Wright Flyer' (Biplane, N0001, WrightBros, live stream) and 'Wright Flyer II' (Biplane, N0002, WrightBros, live stream). A red arrow points to the 'Add Aircraft +' button in the top right corner of the table.

- b. If you are adding live streaming to an existing aircraft, click the down arrow on the far right of that aircraft's row to open up the “Edit” option.

The screenshot shows the UASidekick Admin interface with the 'Aircraft' tab selected. The top navigation bar includes 'New Flight', 'Admin features' (with a red arrow pointing to it), and other icons. The main content area displays a table of aircraft with columns for NAME, TYPE, TAIL/REG #, REG EXPIRES, OWNER, LIVESTREAM, and DIVISION. A detailed view of 'Wright Flyer' is shown, listing its specifications: NAME: Wright Flyer, DIVISION: , TAIL/REG #: N0001, OWNER: WrightBros, TYPE: Biplane, MAKE: Wright, MODEL: 1, SERIAL #: , REGISTERED: , and REGISTRATION EXPIRES: . A red arrow points to the 'Edit' button in the top right corner of the detailed view.

- 2) The “Add/Edit Aircraft” window will pop up. If adding an aircraft, add all the relevant data then move to step a. below.

a. Click the “Add Livestream +” wording.

Add Aircraft

* NAME DJI Mavic 3E

DIVISION Not associated with a division

* TAIL/REG # 55555

TYPE Quadcopter

MAKE DJI

MODEL Mavic 3E

SERIAL # 1581F5?????????GH64

REGISTERED

REGISTRATION EXPIRES

Livestream Add Livestream +

Save Cancel

b. Name the livestream something appropriate, in this case we chose “RGB”. In the ID section, input the DJI serial number it will look something like this “1581F5FJB22A700A0G0Q”. **The serial number must match the vehicle serial from the DJI cloud or the stream will not show up in the app.**

Add Aircraft

* NAME DJI Mavic 3E

DIVISION Not associated with a division

* TAIL/REG # 55555

TYPE Quadcopter

MAKE DJI

MODEL Mavic 3E

SERIAL # 1581F5?????????GH64

REGISTERED

REGISTRATION EXPIRES

Livestream

NAME RGB

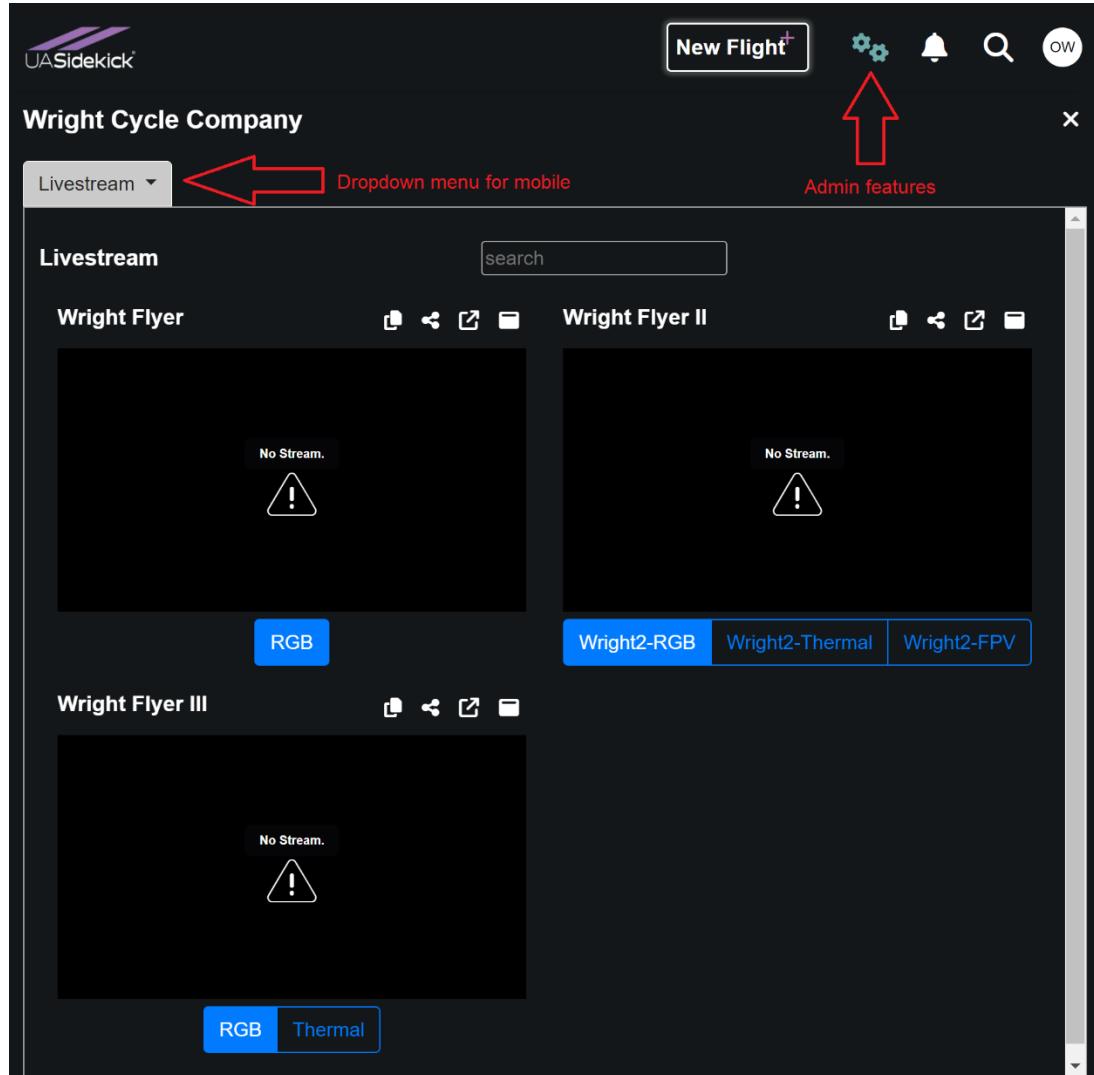

ID 1581F5?????????GH64

Add Livestream +

Save Cancel

3) To access the livestreams use the Admin “Cogs” icon, then navigate to the “Livestream” tab. Depending on the screen size, this will either be a row of tabs or a dropdown menu.

- Switch between available feeds using the blue buttons beneath the stream.
- Copy the URL for sharing using the “Copy” icon to the upper right of the feed.
- Share the feed using available options for the device with the “Share” icon
- Pop the stream out to a new browser tab using the “Pop Out” icon.
- Go from thumbnail view to fullscreen within the app by tapping the “Full Screen” icon.
